GOLD FOR THE JAPS.

A Thousand Rendered Unfit For Soldier's Duties.

SEVERE WEATHER IN CHINA.

Severe Fighting Reported at Jehol, 120 Miles Northeast of Peking—Details Not Given—Hundreds of Wounded Chinese Arriving Daily at Tien-Tsin—John Bull Has Something to Say.

YOKOHAMA, Jan. 11.—It is rumored here that 1,000 men belonging to the first army of Japan operating in China have been invalided by the cold weather.

WILL FORCE CHINA TO ACCEPT.

So Says the Japanese Minister New En Route to England.

OMAHA, Jan. 11.—Taka Ki Kato, Japanese minister to England, was in Omaha half an hour en route. He discussed at length the situation between the warring factions, and was enthusiastic over the prospects of his country to force China to accept her terms. The minister was handed a telegram here which contained the news of the rumored assassination of the King of Corea. It was the first advice he had had.

"I doubt whether the king was assassinated," ventured the minister. "There would be nothing gained by it. In case he is dead, the government of Japan will place his second son on the throne. The present ruler of Corea is what you Americans would call 'no good.' He will, in all probability, be eventually deposed, but in the proper manner."

"The Queen of Corea is a very jealous woman, and it is rumored in Japan that she instigated the sudden death of a concubine who was the mother of the second son of the king, who is heir apparent to the throne. The queen fears she will lose her influence. The King of Corea has one legal wife, a chief concubine and a large number of other concubines. The sons of the head concubine are legitimate children in line for the throne, the same as the children of the queen proper."

JOHN BULL'S EDICT.

The Japanese Squadron Must Keep Out of the Yang-tse-Kiang.

SHANGHAI, Jan. 11.—The British government has wired instructions to Admiral Freemantle, commanding the British fleet in Chinese waters, to prevent by force if necessary the Japanese squadron from ascending the Yang-tse-Kiang river.

Wilde and Howie.

The dispatch further states that the Americans, Wilde and Howie, who were arrested at Kobe on the steamer Sydney in November last in consequence of the discovery of a plot entered into with the Chinese government to destroy the Japanese fleet by the means of explosives, and who were subsequently released on parole, have arrived at Wei-Hai-Wei and are engaged in the work of preparing explosives for use in the carrying out of their scheme.

An Explanation.

LONDON, Jan. 11.—Commenting editorially upon the report circulated by a certain news agency that Admiral Freemantle, commander of the British squadron in Chinese waters, had been ordered to protect the Yang-tse-Kiang against the passage of the Japanese fleet, The Post says that the report may be reduced to very simple matter of fact proportions. It can only refer to the protection of the treaty ports, which Japan has already promised to respect. Therefore there is no necessity for Admiral Freemantle to remind Japan of her own promise.

Chinese Retreated.

YOKOHAMA, Jan. 11.—General Nodzu telegraphs from Shugan, under date of Jan. 8, that the enemy facing the Third division of the Japanese army in the west has retreated on Kokan.

Battle Near Jehol.

SHANGHAI, Jan. 11.—Severe fighting has taken place near Jehol, Mongolia, 120 miles northeast of Peking. Hundreds of wounded Chinese are reported to be arriving at Tien-Tsin daily.

Corea's King in Trouble.

YOKOHAMA, Jan. 11.—Some Japanese newspapers print a report that the King of Corea has been assassinated, while other papers assert that he has been prostrated by epilepsy.

Native Capitalists Decline.

YOKOHAMA, Jan. 11.—Native capitalists decline to float the proposed Co-rean loan.

LARGEST IN THE WORLD.

A Chicago Man Will Erect a Steel Plant For the Japanese Government.

CHICAGO, Jan. 11.—Edward C. Potter, son of O. W. Potter, the millionaire president of the North Chicago rolling mills, has left for Japan, where he will begin the erection for the government of a plant, the largest in the world, for making steel rails, armor plate, boiler plates, etc.

For a year the proposition has been under negotiation. The plant will cost about \$10,000,000. The iron deposits in Japan are said to be the richest in the world. Japan owns all the railroads, and the present cost of importing material for them is enormous.

MOUNT VERNON, O., Jan. 11.—A muzzled dog, which gave every evidence of being mad, was shot by Thomas Barker. It managed, in spite of its muzzle, to bite another dog.

MINISTER AND WIFE VICTIMS

Of One of the Most Brutal of Burglars' Crimes in Indiana.

INDIANAPOLIS, Jan. 11.—Rev. E. E. Henshaw, aged 30, a Methodist minister, living at Belleville, Ind., 16 miles west of this city, on the Vandalia road, and his young wife, were fatally assaulted by burglars at an early hour yesterday morning.

The wife was awakened by the burglars, who had entered through the kitchen. As they turned to leave, Mrs. Henshaw jumped out of bed and grappled with one of the men. Mrs. Henshaw was dragged to the porch, where the burglar shot her through the head with a revolver, and she fell, fatally wounded.

The noise had awakened Mr. Henshaw, who jumped up and went for the other thief. The thief was grabbed by Mr. Henshaw just as he was going out of the back door. The two men fought clear into the middle of the road, where the burglar overpowered the preacher, and after shooting him through the hip, stabbed him no less than 20 times with a dirk knife. Both will die.

The burglars escaped with \$150 in the direction of this city. There is great excitement in the neighborhood, and crowds are scouring the country in search of the murderers. The police of this city have been enlisted in the search, and the bloodhounds of Seymour, Ind., sent to the scene.

PRaises FOR CAPTAIN O'NEIL.

Conducted the Bluefields Affair With Distinguished Ability.

WASHINGTON, Jan. 11.—The cruiser Marblehead, which has recently returned from service at Bluefields, is destined for duty on the European station, and will sail to join the San Francisco, which relieves the Chicago as soon as necessary repairs have been completed at the Norfolk navy yard.

Captain O'Neil, her commander, has received a letter from the British admiralty office thanking him for his service to British subjects during the settlement of the dispute over the sovereignty of the Mosquito strip, and another from the secretary of the navy commending his action throughout the entire negotiations, which were mainly conducted by the captain.

The president of Nicaragua has communicated also with Captain O'Neil with reference to the Bluefields affair and praises him for the diplomacy shown while the Marblehead was in his territory.

A Robber Shot.

CANTON, O., Jan. 11.—At Coldwater a gang of robbers visited the town and cracked several stores. They quarreled among themselves, a shot was heard, and a man was found on the road shot in the head. The robbers escaped. He was about 40 years old, fairly well dressed, 5 feet 8 inches, dark blue eyes, dark brown hair mixed with gray, apparently of Irish descent. The only distinguishing mark was his nose, which was Roman, and had two small holes in the nostrils.

Big Snowstorm.

INDIANAPOLIS, Jan. 11.—Forecast Officer Wapenhaus of the local weather bureau says the snowstorm here is the heaviest known for years. The storm began in earnest at 1:30 yesterday afternoon and the fall at 11 last night was 10 inches. Telephone and telegraph wires were materially interfered with and the streetcar system was practically tied up. All evening trains were more or less delayed in getting into the city.

Murderer Identified.

CLEVELAND, Jan. 11.—At the county jail yesterday Thomas Grant, a prisoner, held on suspicion, was identified by Mrs. W. H. Price, wife of the business man who was murdered on the night of Dec. 11, as one of the burglars who shot her husband. Mrs. Price picked Grant out from among several other prisoners, and said she was quite sure Grant was one of the burglars who killed her husband.

Rescuer Repaid With Oaths.

LOGANSPORT, Ind., Jan. 11.—Patrick Kehoe of Columbus, O., became entangled here and lay down on the railroad bridge to sleep. Patrolman Wirwahn discovered him and dragged him from the tracks just as the midnight express came around a curve. Kehoe repaid his rescuer with a volley of curses, and went to jail to sober up.

Brothers in a Shooting Affray.

NEW ALBANY, Ind., Jan. 11.—Wesley and Henry Williams, who are brothers, quarreled over a small sum of money, and Wesley was shot in the leg with a rifle. Both were arrested. They will recover. Wesley was the aggressor and had made threats to kill his brother on sight.

Burned to Death.

OMAHA, Jan. 11.—Mrs. Charles A. Thieman, wife of the concubine of that name, was burned to death here while attempting to escape from the flames which enveloped her home. In jumping from a window Mr. Thieman broke his leg, and sustained other serious injuries.

Here's Quick Action.

PORTLAND, Ind., Jan. 11.—Joseph Miller and Dan Bowman were jailed, charged with stealing a horse and buggy from Jerome Hopkins. Wednesday night they pleaded guilty, received a sentence of two years each, and were taken to the penitentiary Thursday morning.

Cheatman Acquitted.

NASHVILLE, Jan. 11.—A coroner's jury investigated the killing of A. C. King, shot by Captain Billy Cheatham, and exonerated Cheatham on the ground of self-defense. King's remains will be sent to his old home at Salem, O.

A WRONG IMPRESSION

Prevails Concerning the Arbitration Bill.

MR. WRIGHT'S EXPLANATION.

He Says the Persistent Efforts of Some Newspapers Has Convinced Some People That the Measure Provides For Compulsory Arbitration, Which Is Far From Being the Case.

WASHINGTON, Jan. 11.—Newspaper discussion of the arbitration bill introduced in the house as one result of the investigation of the strike commissioner, has given rise to certain impressions which Commissioner Wright has thought best to discuss in a terse letter to Representative McGann, chairman of the house committee on labor. He says:

"I notice that several newspapers in the country have been very persistent in their attempt to convince people that the arbitration bill drawn by Mr. Kernan and myself at the request of your committee provides for compulsory arbitration. The result of this deception is that several labor organizations and others interested in the passage of the measure are opposing, when, if they knew the facts of the case, they would take such action. The bill does not provide in any sense for compulsory arbitration."

"The attempt is also made to convince employers that the bill is not only compulsory in its nature but compulsory as against employers and not employees. There is no truth whatever in this position, but the effect of this particular deception is to secure the antagonism of railroad corporations."

"Another vicious attempt is to convince workmen that should any member of an incorporated body engage in a strike or other labor controversy such action on the part of individuals would work the forfeiture of such charter as the organization may have secured. There is no such provision in the bill but the deception is injuriously affecting the pending measure."

WEATHER IN EUROPE.

Many Deaths in Consequence of the Snowstorms—Very Cold.

LONDON, Jan. 11.—The weather in England is intensely cold. There is skating in Regent's park and on all the ponds about London. Rev. Thomas Podmore, vicar of Ashton-Le-Willows, was found dead in the snow.

On the continent rivers and lakes are frozen, and many deaths are reported in consequence of the snowstorms which seem to have prevailed in many parts.

Unprecedented.

LONDON, Jan. 11.—A Madrid dispatch to The Standard says that the telegraph to France has not been working for nine days owing to gales and snowstorms. Mail trains are 24 hours late. The severity of the weather is unprecedented. In Santander and Navarre wolves have entered the villages. In the Pyrenees peasants and mailcoaches have perished in the snow.

A dispatch from Rome to The Standard says the heavy snowstorms prevail in Genoa and Pisa and nearly everywhere in upper Italy. At Bologna it has been snowing for 14 hours.

In France.

PARIS, Jan. 11.—At Corbère, on the Spanish-French frontier, a blizzard prevailed on Monday last. Since that time communication by train with Corbère has been interrupted.

In all parts of France intense cold prevails. At Avignon it was so cold that the theaters were obliged to close. The Riviera resorts are also suffering from the cold, and trains to and from the Riviera have been delayed for many hours.

Italy.

ROME, Jan. 11.—A snowstorm, accompanied by a heavy wind, destroyed four houses at Colenza, in the province of Poggia. Sixteen persons were buried in the ruins of the houses. Eight of them were dead when extricated. A woman was frozen to death at Pistoja, province of Florence. Snowstorms have caused great damage at Stresa, on Lake Maggiore, Ravenna and elsewhere.

Vienna in Bad Shape.

VIENNA, Jan. 11.—A terrible snowstorm swept over Vienna, leaving the city almost isolated. Railway and vehicle traffic were reduced to a minimum. Over 3,500 men are at work cleaning the streets. The supplies of vegetables, meat and milk have almost failed. There are seven feet of snow in the suburbs.

In Spain.

ST. SEBASTIAN, Spain, Jan. 11.—Railway communication in the north-eastern part of Spain is interrupted owing to the heavy snow. There are six feet in the valley of the Ebro. Many trains have been snowed up, and the telegraph lines are mostly down.

Astor Tramp Gets a Stay.

NEW YORK, Jan. 11.—Justice Patterson has handed down a decision granting the application of ex-Judge Curtis for a certificate of reasonable doubt and a stay in the case of James Garvey, who is known to fame as the "Astor tramp."

Child Burned.

HOPKINSVILLE, Ky., Jan. 11.—A 6-year-old child was fatally burned here. Three children were in a room with no grown person when Nannie Oldham's dress ignited from the flames. Assistance did not reach her until it was too late.

BURGLARS' BOLD JOB.

Seven Men Seize About \$200 at Martin's Ferry, O.

MARTIN'S FERRY, Jan. 11.—Seven masked men blew open the safe in the Belmont brewery at 1 a. m. and secured \$200.

They seized John Broomey, the night watchman, at a side door, took his revolver and keys, gagged him, carried him outside, made him show them the office, tied his hands and legs, and wrapped him in a blanket.

One man guarded him while the others blew open the safe. One of the safe doors was blown through a window, and all of the windows were shattered.

When the seven men departed they said good night to Broomey. He lay on the cement floor for four hours. The company is glad Broomey was not killed, and cares little about the loss.

COOL MURDERER

Invites His Mother-in-Law to Come See Him Kill His Wife and Baby.

LEWISBURG, Pa., Jan. 11.—Wesley Pawling, a well-to-do farmer, living about a mile west of New Columbia, went to the house of his mother-in-law, half a mile distant, and induced her to accompany her back home "to witness a grand shooting match." Upon their arrival at the Pawling homestead he took a revolver from his pocket and shot his 4-weeks-old child, killing it instantly. He then fired at his wife, inflicting a serious but not fatal wound. Immediately after the shooting he went to the barn and hanged himself. Jealousy is thought to have been the cause of the crime.

Coal For the Sufferers.

WHEELING, Jan. 11.—A train of 20 cars of coal will be sent from Fairmont, this state, to the Nebraska sufferers as a contribution from the miners employed in the vicinity of Fairmont. The coal will be donated by the mine owners and the miners will give their labor in digging it and loading the cars. The Baltimore and Ohio railroad will haul the train free of cost as far as Chicago, where it will be taken by some other road to whatever destination is designated by the governor of Nebraska.

Will Mothers Ever Learn?

FARIBAUT, Minn., Jan. 11.—A frightful accident occurred near Gerstrand, a village about 12 miles east of here. While Mrs. Ernest Scheutte was out feeding the stock during her husband's absence, she saw smoke coming from the house. Upon entering she found that a 3-year-old boy had taken a snuffbox of coals from the stove and poured them on the head of the 6-months-old baby, causing its death and setting fire to the building.

Struck Just Right.

MASSILLON, O., Jan. 11.—At Lodi, O., an express train on the Baltimore and Ohio railroad crashed through the center of a freight train on the Wheeling and Lake Erie railroad, overturning several loaded coal cars. Beyond being shaken, the passengers escaped injury. The express was running at a high rate of speed, and had not the locomotive struck squarely between two cars, the wreck would have been a terrible one.

To Hang Today.

CHATTANOOGA, Jan. 11.—"Buddy" Wooden and George Mapple, murderers of Marion Ross, will be executed in the Hamilton county jail, in this city, this afternoon. The arrangements for the double execution have been perfected. Both men will drop at once. They were to have been hanged on Thanksgiving, but were granted a respite pending investigation as to commutation of sentence.

TREACHEROUS STUFF.

One Hundred Quarts of Nitro-glycerin Explodes.

THREE MEN BLOWN TO PIECES.

This Is the Most Horrible Accident That Has Ever Occurred in the Ohio Oil Field. The Explosive Was Being Thawed in a Barrel of Water Which Is Supposed to Have Been Too Warm.

WAPAKONETA, O., Jan. 11.—An accident the most horrible that has occurred in the Wapakoneta oil field, or, in fact, in this section of the country, was the explosion of 100 quarts of nitroglycerin on the Prueser farm, three miles west of this place, in which three men, named Frank Legan, John Pettigrew and W. J. McNalley were killed and mangled beyond recognition.

The Probable Cause.

The oil well about to be shot was the property of A. Scott & Company of Lima, and the shooter, McNalley, had arrived on the scene but 30 minutes before the explosion, and was thawing the stuff in a barrel of hot water. The water being overheated was the probable cause.

McNalley was from Findlay, aged 30 years, and has a wife and two children. Legan and Pettigrew were both from Upper Sandusky, and the former was married.

At the scene of the explosion

Everything Is a Total Wreck. Where the wagon stood, containing a part of the glycerin, there is a hole in the ground 15 feet across and 20 feet deep, and where the barrel of water stood is a similar hole.

Not a particle of the wagon can be found.

The engine house is blown into the derrick and the boiler turned over and perforated with holes. The bodies of Legan and Pettigrew could be identified only by their shoes and present a horrifying spectacle.

Chunks of Human Flesh

can be picked up in all parts of the field. The horses attached to the wagon were mangled in the same manner as the men, one being blown clear up to the derrick. F. M. Closser, manager of the field, was in the derrick at the time of the explosion, but escaped unharmed.

JUDGE BURKE LOSES

The Demurrer in the \$8,000,000 Hocking Valley Case Decided.

COLUMBUS, O., Jan. 11.—Judge Pugh Thursday decided the demurrer of Judge Burke and his associates to the petition of the New York Central Trust company, which asks for a judgment of \$8,000,000 under the bonds of the Hocking Valley railway, issued in 1881. He held that the demurrer was not well founded, and therefore overruled it. Burke and his lawyers took 60 days in which to file an answer.

With reference to the claim that M. M. Greene's estate could not be held, the court said the claim was not worthy of extended consideration and passed it off by holding that it was not a good claim. The question which the court leaves in doubt is, was the trust created by Burke and the rest of the executive committee of the Hocking road an expressed trust or a constructive trust? If it was an expressed trust it continues till the present time. If it was a constructive trust, Burke and the other defendants are entitled to have the statute of limitations run in their favor.

THE INCOME TAX

Discussed Indirectly by the Senate—Dull Day in the House.

WASHINGTON, Jan. 11.—The income tax came up for considerable discussion in the senate yesterday, in the course of the debate on the urgency deficiency bill, which contains a provision for carrying the law into operation.

Mr. Hill (Dem., N. Y.) offered an amendment designed to afford an opportunity to contest the constitutionality of the act upon which he spoke briefly.

Mr. Quay (Rep., Pa.) also gave notice of several amendments he intends to offer to the bill, one for the income tax, and the others to insert the McKinley tariff act and the woolen schedule. Mr. Caffrey of Louisiana commenced his speech on the Nicaraguan canal bill, but had not completed it when the senate adjourned.

House.

WASHINGTON, Jan. 11.—The proceedings in the house yesterday were exceedingly dull, most of the day being consumed in the consideration of the District of Columbia appropriation bill, which was passed. Several bills of minor importance relating to steamship matters were passed and also 10 private pension bills.

Question of Jurisdiction.

DELAWARE, O., Jan. 11.—At the opening of the winter term of the Ohio Wesleyan university two young men and two young ladies, students, were nominally suspended for attending the theater during the holiday season. They were at home with their parents in this city, and the question is now being raised whether the university had jurisdiction over them during that time.

Its long and prominent career is convincing evidence of the estimate the people place upon it as a newspaper and advertising medium. Weekly, \$1.50 a year; Daily, \$3 a year. Proportional rates for less than a year. Now is the time to subscribe. Advertising rates furnished on application.

FRIDAY, JANUARY 11, 1895.

SOUTH DAKOTA'S Treasurer has skipped out with \$34,000 of the State's money, and he was a Republican at that, too. Now let up on Uncle Dick Tate, Br'er Davis.

BROTHER MARSH ventured in among the Republican county officials yesterday, and strange to say he still lives!—Public Ledger.

Why you certainly didn't expect them to take his life, did you?

THE New York Advertiser waxes wroth over the fact that New York city will have to pay from one-third to one-half the Federal income tax. And the Boston Traveler replies that the New York brethren should remember that it's their own fault. Their bank clearings are about five or six times as much as those of any other city. If we could have Vanderbilt's money, only on condition of paying the income tax, we "wouldn't kick," says the Traveler. We are not enamored of the income tax by any means, but if there were no stronger argument against it than that New York city will have to pay half of it, the rest of the world wouldn't be very deeply impressed. If she doesn't want to pay so much, let her get rid of some of her excess of wealth. A big New York income will not have to pay any more than an income as large in Boston, or Chicago, or even Oshkosh.

THE RESPONSIBILITY AND REMEDY.

It will aid in a rational settlement of our currency trouble, the New York World says, if both parties will accept their just share of the responsibility for its existence. The New York Tribune attempts to shirk all share in this trouble for the Republicans. It says: "The currency question is not now and has never been a source of any danger since the resumption of specie payments." And it attributes the monetary panic of last year to the election of a Democratic President and Congress in 1892.

Putting aside the fact that Mr. Cleveland was known to be a stancher friend of "sound money" than Benjamin Harrison can claim to be since he signed the Sherman Silver Purchase act, the Tribune ignores the new element of danger introduced into our currency system by that law.

Our contemporary says "there was practically no redemption of Treasury notes called for" until after 1892. But why evade the fact that the gold reserve was imperilled and the raid upon it actually started by the enormous inflation of the legal tenders under the Sherman law of 1890, passed by Republican votes exclusively? That panic-breeding law added \$155,930,000 to the notes receivable for all public dues and redeemable in gold. The silver bullion purchased under that act, if sold at current quotations, would involve a loss of over \$55,000,000 to the Treasury.

This is a part only of the Republican share in the responsibility for the currency and Treasury troubles, continues the World. The rest grows out of the squandering of the surplus by Tom Reed's Congress and the depletion of the revenues by the McKinley law. The Democrats at the South and West have given much encouragement to the free-silver movement, and have thus injured our credit abroad. But nothing that the party has actually done compares in evil effects with the Republican acts which we have mentioned.

The imperative need now is to put an end to a system which siphons gold out of the Treasury faster than it can be poured in. Both parties in Congress owe it to the country to unite for the accomplishment of that end.

A Maysvillian Gets There.

A new Court of Appeals has completed the organization, as follows:

A NATIVE OF MASON

Who Has Been "a Child of Affliction" Since She Left This State—Death of Mrs. Nannie Cole.

Died, December 23rd, at the home of her brother in Atchison County, Mo., Mrs. Nannie Cole, aged sixty-two years. Mrs. Cole was a native of Mason County, and leaves many relatives in Fleming, Mason and Nicholas. Her maiden name was Wells, a niece of John Wells and of Major John T. Walker, Mrs. Nancy Proctor and Mrs. Polly B. Smith; all the above being well known to the old residents of Fleming and Mason counties.

A correspondent of the Fleming News says: "Mrs. Cole has been indeed a child of affliction since her removal from this State in 185-. Her husband was killed many years ago in Texas by a negro, for his money. An only daughter, dying afterwards, left in her care two little ones whom she nourished tenderly for eight years, when, the father marrying, they were taken from her, and she was never allowed to see them. Of the three sons, one died away from home in the mountains of Colorado; one is an inmate of an asylum at St. Joseph, Mo., and the last heard of the other one he started from a mining town to Durango, Col., to draw his money to come to mother, and has never been heard of since."

Cure for Headache.

As a remedy for all forms of headache Electric Bitters has proved to be the very best. It effects a permanent cure and the most dreaded habitual sick headaches yield to its influence. We urge all who are afflicted to procure a bottle, and give this remedy a fair trial. In cases of habitual constipation Electric Bitters cures by giving the needed tone to the bowels, and few cases long resist the use of this medicine. Try it once. Large bottles only fifty cents at J. Jas. Wood's drug store.

The Modern Mother.

Has found that her little ones are improved more by the pleasant laxative, Syrup of Figs, when in need of the laxative effect of a gentle remedy, than by any other, and that it is more acceptable to them. Children enjoy it and it benefits them. The true remedy, Syrup of Figs, is manufactured by the California Fig Syrup Co. only.

Delinquent Tax-payers.

The delinquent tax list of 1894 has been placed in my hands for collection. Those who owe are respectfully requested to settle, in order to save trouble and expense.

COL. F. S. OWENS.

Maysville Mourns the Death of One of Her Best Known Business Men.

The Final Summons Came Last Night. Sketch of the Deceased—The Funeral Arrangements.

"Our dying friends are pioneers to smoothe Our rugged path to death, to break those bars Of terror * * * nature throws 'Cross our obstructed way."

Colonel Frank S. Owens, whose critical illness was mentioned yesterday, lingered though the day and until 10:45 o'clock last night, when the summons came that called him from his friends and loved ones here to the loved ones gone before,—from the busy scenes of this life to the quiet and rest of the life beyond.

Colonel Owens was a picture of vigorous manhood in his younger days, retaining this strength of mind and body up to a few years ago when his physical health began failing. Since the partial stroke of paralysis he suffered early last summer, his decline had been very marked. His was a case where medical skill was of little avail, and for weeks he had been in a very feeble condition. Late Wednesday evening, on returning home from his place of business, he was again stricken with paralysis, soon sinking into unconsciousness, in which condition he remained until the end.

Deceased had been identified with Maysville and her business interests since 1849. He was born at Washington and was sixty-five years of age. On coming to Maysville he engaged in the hardware business as a member of the firm of Coburn, Reeder & Owens. Some years later the firm was succeeded by the firm of Currens & Owens.

On July 1, 1860, Owens, Pinkard & Barkley engaged in the hardware business where the Central Hotel now stands, the junior member of the firm being Mr. H. C. Barkley. On February 6, 1863, this firm suffered a heavy loss by the burning of their establishment by a man named John Harris. Nothing daunted by their reverses, Colonel Owens and Mr. Barkley formed a partnership January 1, 1864, and again embarked in the hardware business in the building now occupied by the Frank Owens Hardware Company. Beginning on a limited scale, the business of this firm grew to be one of the most extensive of the kind in the State, covering territory in Kentucky, Ohio and West Virginia. For a quarter of a century the firm of O. & B. continued in business, and at the end of all these years it was the pardonable boast of the two members that not a harsh or unkind word had ever passed between them. On Mr. Barkley's retiring from the hardware business a few years ago, his partner of twenty-five years organized the present Frank Owens Hardware Company.

Colonel Owens was a descendant of Sir Francis Wyatt, one of the early Colonial Governors of Virginia. His parents belonged to two of the pioneer families of Mason County, his father, Conquest Wyatt Owens, being a son of Samuel Owens who came to this county in 1792; his mother was a daughter of Colonel Francis Preston who came to Kentucky early in the present century and was for years proprietor of the old Halfway House, near Lewisburg, a famous resort for travelers in the early days.

In early life Colonel Owens was happily wedded to Miss Mary Browning, who survives him. Six children blessed their union, and of these five survive,—three daughters, Mrs. E. R. Blaine, Misses Bessie and Lydia Owens, and two sons, Robert and Harry.

In his death Maysville loses one of her best citizens. Always active in promoting all useful enterprises for the improvement and building up of the city, his death removes an important factor in Maysville's business history, and will be sincerely mourned on every hand by the many warm friends whom he gathered about him in his long and active life.

The funeral will occur at the family

residence on West Front street to-morrow at 11 a. m., with religious services by Rev. Robert G. Patrick of the First Baptist Church.

Deceased was prominent in Masonic circles, being one of the oldest members and a Past Eminent Commander of Maysville Commandery No 10, K. T., and also a member of the Scottish Rite and the Shrine. He will be interred with the honors of the order, Maysville Commandery having charge of the funeral services and burial.

MRS. JAMES SMITH.

One of Maysville's Highly Esteemed Women Passes to Her Reward After a Long and Useful Life.

Mrs. Anna Bullen Smith, wife of the venerable James Smith of West Second street, died this morning at 1 o'clock, of general debility. A few days ago, her condition became alarming, and she sank into "a death-like sleep" that proved "a gentle waiting to immortal life."

The funeral will occur Sunday afternoon at 2 o'clock at the family residence and will be conducted by Rev. Dr. Hays. Interment in Maysville Cemetery.

Mrs. Smith was a native of Preston, Eng., where she grew to womanhood, and where she and James Smith were united in marriage on September 20th, 1844. Shortly after that happy event, the couple came to Maysville, and here her long and useful life was spent. Her maiden name was Bullen, and she was seventy-one years of age.

On September 20th last, she and her venerable husband enjoyed the pleasure of celebrating their golden wedding, surrounded by their large and interesting family of children and grandchildren who have formed a happy circle about them in their declining days.

Her husband survives her and she leaves seven children, three daughters and four sons, Mrs. T. F. Rogers, of Mt. Sterling, Mrs. John Pecor, of this city, Mrs. John D. Tash, of Chicago, Mr. James Smith, of Ashland, and Dr. T. H. N. Smith, Samuel and Charles Smith, of this city.

THE East Maysville revival has begun in earnest. The great audience last night at Mitchell Chapel was visited with a cyclone of religious power. One addition and four conversions. Rev. Ernest Robinson, who is doing the preaching, is a member of the West Virginia conference. He is humorous, pathetic, practical and spiritual. The people last night laughed through their tears. Services each day, afternoon at 2 o'clock and evening at 8:30.

THE bad blood engendered by the Breckinridge-Owens contest is still manifesting itself occasionally. Judge George B. Kinkead, an Owens man, came near killing Wm. Lane, an admirer of Colonel Breckinridge, in an altercation Wednesday evening at the Phoenix Hotel, Lexington. Kinkead was going at Lane with a knife, when Lieutenant Governor Alford seized him. The Judge broke away and again went at his man, but Alford grabbed him the second time. The trouble started over a "cussing" Lane gave Kinkead during the campaign.

THEY WILL BE DONE.

Sudden Death of Rev. Father J. B. Glorieux This Morning.

The Venerable Pastor of St. Patrick's Church Called to His Reward.

"Father Glorieux is dead!"

Such were the words that passed from one to another this morning and it soon became generally known that the beloved pastor of St. Patrick's Church, this city, had passed to his reward.

The fatal summons came about 8:30 a. m. Long in feeble health, he became worse last night.

At 6 o'clock this morning a great change was noticed in the condition of the venerable pastor and he continued to sink rapidly until the end.

Although Father Glorieux has been failing for about two years his sufferings at no time were intense.

His troubles were mostly from general debility, and his sufferings were borne with that christian fortitude characteristic of the faithful servant of God.

He was conscious until a few minutes before his death.

The funeral arrangements will not be known until the Rt. Rev. Bishop Maes arrives from Covington.

Later he came up to Dover for a day, took a lot of negatives, collected the money in advance, and then skipped, leaving hundreds of patrons without either the substance or the shadow.

AN exchange sums up the matter in these words: "Good roads in a rural country mean better schools, better churches, better markets, higher prices for land, and better times every way. When good roads are secured, the long distance travel on bicycles will become something very considerable, as it already is in Great Britain."

COLONEL J. H. POWELL, of Henderson, Ky., the well-known Pythian lecturer, has disappeared and no trace of him can be obtained. He was stricken with partial paralysis of the brain while speaking at Columbus, O., the other night. He recovered sufficiently to be able to leave for home next day, and nothing has been heard from him since then.

TWO BIG VERDICTS VANISH.

Judge Taft Sets Aside Judgment for \$20,000 Against the C. and O. Railroad.

Twenty thousand dollars of damage verdicts of the Kenton Circuit Court were wiped out by one order of the United States Circuit Court Tuesday, says the Covington Commonwealth. At the last term of the Kenton Circuit Court at Independence, damage verdicts of \$10,000 each were returned against the Chesapeake and Ohio Railway Company in the cases of L. A. Hukill's administrator against that company and John S. Powers against the same defendant.

Hukill was killed on the C. and O. and Powers lost his right arm in the Newport yards. When the cases were first called for trial in the State court they were removed by the railroad company to the Federal court, but were remanded by that court to the State court, because plaintiffs had made certain employees of the railroad company parties defendant, and these employees were residents of Kentucky.

Upon the calling of the cases for trial at Independence the plaintiffs discontinued the cases as to all defendants except the railroad company. The company then again petitioned the court to remove the cases to the Federal court, but these motions were overruled and the trials proceeded with, resulting in the verdicts mentioned.

Counsel for the railroad company brought the cases again to the Federal court where they were fully argued at the December term, and Tuesday the order was entered refusing to remand them, the effect of which is, that the verdicts of the Kenton Circuit Court are void.

In its opinion the court says: "The joinder of a fireman, or an engineer, or a conductor in an action to recover \$25,000 against a railroad company, without explanation, of itself raises a suspicion that it is not done merely to recover a judgment against the employees and when, after fear of removal is passed they are then dismissed, the inference as to the purpose of their joinder is too plain to need much discussion.*** We are very clear that the plaintiff ought not to be allowed to take advantage of a delay in removal which his own fraud has brought about.

"When plaintiff dismissed the resident defendants he made a removable case, and the palpable device adopted to prevent an earlier removal disables him from pleading limitation.

"The case shows a juggling with the names of the resident defendants to enable the plaintiff to select that form deemed most favorable for his interest, without any bona fide intention of securing judgment against the persons whose names were thus used."

The tobacco sales at Cincinnati Wednesday amounted to 1,065 hhds. This was the highest number of hhds. ever sold in one day on the Queen City "breaks."

Wednesday's sales represented about 1,384,500 pounds and a cash value of \$150,000.

J. L. Horton, of Paris, sold two hhds. of the 1894 crop at \$19 and \$19.25 per 100 pounds at the Cincinnati warehouse, and J. S. Wilson, a popular shipper of the same town, sold at the same warehouse six hhds. of new tobacco at \$15.75, \$16, \$12.75, \$16.75, \$17 and \$17.75.

The same house also sold for account of T. L. Best, of this county, two hhds. of the old crop at \$16.75 and \$20, five hhds. old, for J. D. Hancock, of Chatham, at \$13, \$14, \$16, \$16.75 and \$17.75.

Of Course, "What Are We Here For."

NEWPORT, Ky., Jan. 8.—This was the first day of Republican rule in Campbell County, and it was signalized in genuine Republican style. The Board of Magistrates, which has the say so in the matter, raised the salary of the new Republican County Judge, A. L. Bennett, \$500 a year over what was paid to his Democratic predecessor the past eight years. Some minor officials also got a raise in their salaries. This, in the face of the present distress, is causing the farmers of the county to wonder if they got just what they wanted when they voted the Democracy out last November.

NEEDED DIETING.

An Attenuated Horse That Excited an Officer's Unnecessary Sympathy.

A South Chicago policeman came across an attenuated sorrel horse tied to a hitching post the other day. He waited a few minutes until the owner arrived and then said:

"Why don't you feed your horse something? I'd wager that he hasn't seen an oat since he was a colt. Do you feed him on the photograph of a bale of hay?"

"Mr. Officer, you don't know that horse, or you wouldn't talk that way."

"I don't know the horse, but I know that you ought to be run in for working a starved beast like that. It's a case for the S. P. C. A. Do you weigh out his food to him on an apothecary's scales?"

"Officer, before you say any more do me a favor. Get in that buggy and drive around a block, and when you come back here tell me what to feed him. I'll do whatever you say."

The policeman got into the buggy and started off. He thought he was in a merry-go-round driven by cyclone power. He braced his feet against the dashboard and hung on to the reins until his wrists cracked and there was a shower of heels all over the road. The buggy slewed around corners on one wheel, and when the horse finally landed up against the hitching post with its front legs over the shafts the officer was so dazed that he couldn't speak for a minute.

"Well," queried the owner, "what do you think I'd better feed the horse?"

"If I owned him," answered the policeman sternly, "I'd feed him on some good reliable anesthetic."—Chicago Tribune.
